

WELDED MESH

RSC Ekusasa Mining is the Original Equipment Manufacturer (OEM) and supplier of Welded Mesh (Mining Mesh) to the mining industry in Africa

Description

Welded Mesh provides confinement to loose rock between installed rock bolts in underground mining excavations. Multiple configurations of mesh are available including numerous sheet sizes, apertures, wire diameters and black or galvanised wire.

Specific mesh products are available to suit metal mining and coal mining requirements.

Advantages of the product

- High corrosion resistance when galvanised
- High tensile strength
- Lightweight, easy, and quick to install.
- Very durable when installed correctly.
- Rigid, no sagging in contrast to other similar products available.
- Reduces the risk in "Fall of Ground" (FOG) accidents.
- Creates a safer work environment.
