

W-STRAPS

RSC Ekusasa Mining is the Original Equipment Manufacturer (OEM) and supplier of W-Straps to the mining industry in Africa.

Description

W-Straps are used to support fractured ground between rock bolts by providing a continuous steel plate between the bolts. W-Straps may be fixed to the rock by two or more rock bolts and will conform to major surface irregularities.

Dimensional Specifications

Width (mm)	Length (mm)	Plate Thickness (mm)	Hole Diameter (mm)	Hole Spacing (mm)
265	0.3 - 5.0	1.6	40	500

Advantages of the product

- Large surface containment area for fragmented rock.
- Available in a range of lengths.
- Manufactured from hot rolled commercial grade mild steel.
- Evenly spaced holes for bolting.
